

## Membership report for AGM 2009 Liz Garrity

### Membership

I would like to thank Suzanne Wilson who has recently stepped in to the role of Membership Coordinator. Suzanne (Health Information Scientist, NHS Quality Improvement Scotland) will be coordinating this coming year's subscriptions and renewals, and helping to administer Lis-Shine membership.

Current Shine membership:	
Life members	4
Personal Members	12
Associate Members	1
Institutional Members	95

Inevitably, changes have led to libraries leaving Shine this year – Argyll & Bute Hospital Library (H/AB) is due for closure and will not be renewing membership; the University of Stirling Library (FV/SU) is undergoing refurbishment and their journals are going into storage for a year.

The marketing group will be developing material for the new website which details the advantages of Shine.

### Marketing

New members are sought for the Membership and Marketing group, to help promote Shine's values. The new marketing group will have an opportunity to develop new ideas as well as consolidating work carried out previously. At present there is no-one taking the lead on this, and therefore a golden opportunity awaits for someone who is interested in marketing.
